Ramblings

GARDEN GROVE KIWANIS RAMBLINGS, PUBLISHED WEEKLY

DECEMBER 23, 2004

Things are looking up for our Godfather!

Jay may be turning the corner

Once again proving you may be able to hurt him, but not stop him, **Jay** is starting to get a little stronger on his way to recovery, While it may take some time to come back to his old self, an operation has been ruled out, The good news is that if **Jay** can reach an agreement between his legs and feet, to stop falling he just might do it, Known in his younger life as "The great Conditioner" It sounds like a Slam dunk to me. **Jack Wallin** has been named **Patience Trainer** and we will just have to wait and see how that one goes down.

It can be a Happy Holiday Season, Merry Christmas, Happy New Years, Happy Chanukah or a happy and prosperous Ramadan, just enjoy the moment and stop to think of Jay, and pray a bit for his return to health quickly.

Turkey Shoot a Success! Thirty Two went down, none came up!

When **Bob Main** promised the Catholic Church about 30 Turkeys for their dinner for the less fortunate, we knew he meant nothing less, Therefore I was relieved when I checked in, it looked good, but I still got the "**Main**" glare, "What's the matter, asked I?" Did you bring a **Turkey**, Bob asked? "How could I be talking to you if I didn't bring a Turkey" said I. "Do I look stupid? You said anyone without a turkey would not get in." "Would you like one of my cookies or a piece of cheese as proof?" **Main** shrugged, "That guy over there is eating and he came here birdless." "That guy is one of your best buddies!" I screamed! Why is he eating? For the sake of this article he will be nameless, but his initials are the same as what they call a place that **Indians** live in, (No it isn't a gorgeous hotel with a Spa, free buffet, and Casino gaming!) Somewhat in a huff, I snapped "You caved! How could you!" "I kind of felt sorry for him," **Main** said. He saw **Ed Beaudin** the other day and **Ed** still looks better than he does, He is down, He's seeing all these women and he just doesn't have time to help us with a Turkey, He is tired. Well then **Bob**, you should ask him to get one of his ladies to do it for him, I smugly folded my arms as I once read that you should do if you think you have the upper hand somewhere, **Main** didn't pick up on my nuanced subtlety and said all those ladies were as busy as he was, so he couldn't be held accountable, They were busy doing the same thing, I suppose, Boy if this is left to continue, without indignation, I may renounce my morality! **Main** suggested that there might not be a crowd present for that one.

Many Thanks

Bob Main Senior, put together the party, **Robert Main** was splendid getting the Turkeys from the entrance of the parking lot, to the Kitchen, and **Rob Main** I think was not available, Also many thanks to **Bill and Ginny Grant**, for bringing their Special **Avocado Dip**. It's in fact their world famous Avocado Dip actually, That is impressive considering that they don't have a restaurant, It is great though, People came and went, I only knew who was here when I was, **Don and Joan M.**, **Peter and Suki**, **Will and Rosa**, **Gary and Sharon**, **RC**, **Gerry N.**, **Becky and Jerry K.**, **Shelly Singer and Carol**, newest member **Bruce Broadwater**, the mostly missing, but always supportive **Bart Blakesley and wife Lynn**, **Rick Glasby** and **Lenny Main**, so she can see that I do spell her name right from time to time, I'm not going to bore you with the "Who Bought Turkey's list, but should mention that **Jack Steffy**, the **Tom Elliott's**, the **Leeb's**, and **Finkelstein's**, (Remember **Stu**!) all brought two, Thank You!

Ladies Night Party Thursday and Gordon Dillow January 6th

I'm sorry about missing out on the Christmas-New Years Party, but unfortunately our cruise ship had the nerve to go out on the day it is supposed to, So we will miss, Have a great party and let those who aren't as well, get back to strength, Don't forget **Gordon Dillow**, he's not just a columnist, He actually quit the Register to do this job, He was considered an "embedded Columnist, He lived with the unit he followed, 24-7, Takes a lot of guts, I thought embedded meant that you slept on wire. but the traveling method is what is correct. He will have lots of things to say. Some think his devotion is awesome, others think he's out of his mind, He is fascinating.

Coming Attractions

December 30th

Ladies Night Christmas, New Years, and maybe even Valentine's Day dinner

Jan. 6th

Gordon Dillow, Register Columnist - Iraq Correspondent

Thought for the week

The two most common elements in the universe are Hydrogen and stupidity.
