# Ramblings

GARDEN GROVE KIWANIS RAMBLINGS, PUBLISHED WEEKLY

JUNE 19., 2008

*Trend becoming a concern, or are we worrying all day about the cost of gasoline?*

## Speaker a no show!

Once again a speaker was a no show. Now we know that these things happen, but two in a row is rather disturbing. Especially when the speaker begs off because she had a nap scheduled. If we had only known that she could have taken it while listening to the rest of the meeting, and accomplished two goals. Multi-Tasking isn't what it used to be.. At least we know that **Janet Nguyen** will be here on July 10th for our Spouse or partner night. There was a bit of miscommunication last time. She promises to be here this time, and will have some thing's to talk about that should be interesting to all of us.

## So Many Things To Talk About, So What Topped The List?

Surely with **Elections, Lakers collapse, Gas Prices, Air Travel, Tiger Woods, and Heat**, among other subjects to discuss, I'm sure you want to know which one garnered the most interest. I shall tell you. It seems our soon to be next President, **Ton Petrosine**, has a lady friend, and she caught him committing the unspeakable offense of eating **Ice Cream directly from the carton**, not to mention **returning the carton to the fridge!** Doing what anyone would do in that situation, **Petrosine** started a petition for those believing this is a reasonable time saving, efficient, method of consuming Ice Cream, and put an end to this heresy once and for all. Not surprisingly it was signed by all members present. The result was not unexpected. After much conversation, it was determined that it must be a man-woman thing. Unfortunately **Robin** was unavailable for comment. Elections, cost of air travel. and the rest were postponed to another day.

This has nothing to do with anything except that I wonder why someone would put legs under a hat, and call it creative cartoon?

## But There Was More

We don't want you to think nothing happened; Au Contraire! It was announced that nominations for the **Cypress College Citizen of the Year**, will close on **July 7th**. Last time it was brought up, it was determined that no one who hadn't received it, was worthy of being honored. That was some years ago, so most likely someone is worthy now? Any ideas? We do have a speaker next week, he is a cousin of **Harry Truman**, and an Engineer. He will be talking about the Radar System in **Afghanistan**, and his experiences there. Should be very interesting. **Lobin** says to bring a cigar, even if you don't smoke. It will add to the evening and it will be a fun thing. I only write this, I don't have to understand it.

## Moose Lodge contributes to Kiwanisland

The **Moose Lodge**, where drinking is an art, has been using the park for their last couple of picnics, and this month they presented **Jack Wallin** with a check for **Kiwanisland** for \$500.00 for which we thank them.

**R.C. Gall and Tom Elliott** were celebrating **Birthdays**, much to the delight of our happy/sad money collector. In addition to wishing them well, there was also a fair amount of money donated in their honor. For **R.C.**, it was his 87th, when we left **Tom E.** was still counting his. Among the contributors for both were; **Efrain, Petrosine, Walt, Craig**, ( who claims to have had a sexual act performed on him by the Tax Assessor's office) **Sunda, Nielsen, Hodges and Kelly**. In addition, **Fred** was happy to see **Ed**, **Jay** had dinner with his two boys, **Main** misses **Shelly's** programs, **Will** has a new grandchild, and after **Rosa** complained for three days about the Grocery Store charging her for milk but not putting it in the bag, it exploded in the trunk of her car. Someone was sad because **Hof's Hut** closed two restaurants. One was in **Westminster** and the other in **Tustin**. **Jerry M.** happy, Fortunately according to our Government, we are not in a depression. If I omitted anyone or got it wrong, my apologies to all. In fact if you feel suspension from writing this is necessary, go ahead and let me know. I will just have to deal with it. Come back soon Gerry! Like **Thursday**

## Coming Soon

**June 26 Chuck Truman** on our Radar System in Afghanistan

**July 3rd Water** down your roof day.

**July 4th Elks Lodge Barbecue** and Chili Cook off. Along with Snake Oil Willy and his band

## Thought for the Week

**All my life I wanted to be somebody. Now that I look back, I guess I should have been more selective.**
